

Why Use Us?

We offer the best products available and experienced personnel to help you decide what products are right for you.

We combine fashion and function into a pair of glasses custom made specifically for you! After your purchase we maintain, service and warranty them to keep you comfortable and seeing your best. Our Doctor of Optometry is thorough and highly skilled, and has the latest equipment. He also treats medical issues and can prescribe medicines to treat them.

**Check Yearly.
See Clearly.®**

Just to name a few....

About routine vision coverage.

While we don't directly participate with many insurance plans, we will help you collect from your plan.

This is like a cash back bonus to you after you pay your bill. We have a staff member that is dedicated to insurance billing only. As long as you can collect benefits out of network and your bill is paid, we will help you file your claim. Sometime you will need to supply us with a form from your company.

As far as pricing goes we are competitive. We can quote you and then if you choose you can compare "apples to apples" with another eyewear provider. Just make sure they are quoting you using the same name brands and current, not discontinued products. Our warranty is better than most, and adjustments and minor repair service excellent.

Call for more information.
